FYI

July 14, 2011

In April of this year, The American Health Care Association and National Center for Assisted Living (AHCA/NCAL) along with [Everbridge](#) – the world's recognized leader in [incident notification systems](#) – announced a new partnership where Everbridge will serve as the preferred notification system to members and provide very preferred pricing.

Everbridge helps managed care facilities communicate and manage their businesses in less-time using fewer resources.

From routine staff communications to emergency responses, the Everbridge mass notification system quickly and efficiently delivers messages to recipients.

An individual, group, or entire organization can be contacted as the system cycles through multiple voice and text devices until all messages are delivered. The Everbridge system eliminates the need for onsite hardware, software, and additional phone lines; simply call or log in to the Everbridge interface to perform all notification tasks.

Everbridge enables your facility to:

- Manage Staff Call Outs automatically with Real-Time Quota Notifications
- Alert appropriate management of surprise inspections 24/7/365
- Proactively notify family members of changes in facility status (example: power outage)

With Everbridge, one person can communicate with tens, hundreds, or thousands of people anywhere, anytime via any communication device including

phone, email, text messaging, instant messaging, desktop alerting over IM, fax, smart phones, PDAs, Social Media sites, pagers, and more. Each person may have 35 different devices in their queue.

Initiate broadcasts from anywhere, anytime by phone, internet, or web-enabled portable device. Send voice and text messages in one broadcast. Even untrained users can quickly send a message using Everbridge's intuitive interface.

The Everbridge system delivers messages to each device in your contacts' order of preference and stops once a recipient **confirms receipt**.

Yes, that's right – Everbridge provides two-way communication. Deliver a single message or a menu of choices and get real information back in real time.

Your primary contact at Everbridge is Bob Hillman. He may be reached at Bob.Hillman@everbridge.com or 818.230.9513. Please contact Bob to receive further information by email, to set a time for a brief Online Demonstration or if you just have questions about pricing and other details.

Or click on the link below to visit the Everbridge Nursing Home and Long Term Care web page.
